## **Passive Networking with Amphenol FCI Solutions :**

The IT team at NxtGen was convinced of the fact that Amphenol FCI could support their networking requirement at their PAN India Locations. Amphenol FCI provided complete technical support for the infrastructure at NxtGen and also ensure the logistics/operational and customer support, so that all deliverables are met with as per client satisfaction.

**Amphenol FCI provided NxtGen with Copper Cat6A LSZH Solutions and fiber SM and MM along with MPO solutions. We have also immensely supported the QSFP requirement for their network side. NxtGen is impressed by the solutions and support offered to their PAN India locations and look forward to collaborate more as a technology partner PAN India and in the future if need arises globally too..**

Investing in a robust and reliable Datacenter is a critical decision that companies have to make to ensure business continuity. NxtGen is a leader in the space of Datacenter and cloud-based services. They understand both the business of technology, and the technology of business.

NxtGen's primary aim is to help businesses of different scale grow substantially by creating additional capacity from their existing Infrastructure, while reducing complexity and cost significantly.

Making a clear and purposeful departure from the Datacenter service industry as the world knows it, their business is purely driven by how they operate and help companies grow.

*“With fully functional offices in Bangalore, Mumbai, Delhi, Chennai and Hyderabad, they are slowly expanding base of business operations in the Middle East and South Asia.
